## Education

MSc in Computer Science, University of Lagos, 2018

BSc in Computer Science, University of Port Harcourt, 2015

## Professional Experience

Senior NLP Engineer at BlueSpring Pharmaceuticals (Jan 2020 - Dec 2022)

- Developed and deployed an NLP model for sentiment analysis using HuggingFace Transformers and AWS.
- Fine-tuned LLMs for internal chatbot applications, improving response accuracy by 20%.
- Led data wrangling and preprocessing for large-scale text datasets using SpaCy and Python.

Data Scientist at TechTrend Innovations (Jun 2017 - Dec 2018)

- Built predictive models using PyTorch and TensorFlow, deployed to GCP for real??
- Conducted data analysis and visualization for business intelligence dashboards.
- Implemented NLP pipelines with NLTK for text classification tasks.

## Skills

- Programming: Python, JavaScript
- Frameworks: HuggingFace Transformers, SpaCy, NLTK, PyTorch, TensorFlow
- Cloud: AWS, GCP
- Techniques: LLM fine-tuning, embeddings, prompt engineering, model evaluation
- Soft Skills: Leadership, Problem Solving, Communication
